internet
- Limited participants
- Intimate discussions, personalized
question and answer session
- 10% discount off next JVIS purchase

Free JVIS Teletraining.

Join Marc Verhoeve, author of the JVIS Applications Handbook, in the free teletraining session “Effective JVIS Interpretation”. Marc will be sharing his insights in the use of this powerful, career-decision tool.

The JVIS report presents a clear “career snapshot” of the respondent providing a career path that most closely matches the respondents’ interests. The report supplies a definitive listing of appropriate college and university majors with links to NOC codes.

Don't miss this valuable opportunity to share thoughts and insights into best practices in online career testing.

To register for our next **free** Teletraining session, please contact SIGMA with your name, phone number, and email address.

Call 1-800-401-4480 or email
CustomerService@JVIS.com.

About Marc Verhoeve

Marc is a retired secondary school counselling head, private career practitioner, President of OSCA, Web journalist, Web course architect, author of the JVIS Applications Handbook, and a SIGMA Assessment Systems, Inc. cybertraining consultant.

FREQUENTLY ASKED QUESTIONS

What is the Jackson Vocational Interest Survey (JVIS)?

The JVIS is a powerful assessment that pinpoints the academic and career fields that would be best suited for individuals based on their unique sets of interests.

What is the JVIS.com?

The JVIS.com is the online version of the JVIS. It provides a dynamic profile with fastlinks to professional and job-related websites. Counselors use an interface that gives full control to the counselor.

Why should I use the JVIS?

The JVIS is statistically-accurate. It provides a multi-page "career roadmap", based on sophisticated research and standardization. Over 600,000 people have received JVIS reports. The JVIS report is personalized for you and contains detailed information, resources, and links based on your results.

TESTIMONIALS

"I just wanted to drop a line to tell you how much I enjoyed Tuesday night's teletraining. You (Marc Verhoeve) are a fabulous facilitator and very engaging. I learnt a lot. Along with JVIS manual, I will be purchasing your book (JVIS Applications Handbook), as I hope it will provide me with the means in assisting and acquiring the insight that you have. Again, thank you very much."

Kim C., Advisor/Facilitator at Centre for Education and Training

"Marc, your presentation was sooo interesting. I really loved how all the different components come together giving us deeper insight into why some careers work better for us than others...I can't wait to read the technical manual to delve deeper into specifics. Anyway we, in our office, truly enjoyed this teletraining. I wish they could all be this engaging."

Melba S., One Stop Career Center Case Manager

"...A primary benefit of the JVIS assessments was the communication by all team members as each profile was completed, and the main interests of team members were discovered, as well as who is like whom, and where the differences are. The enthusiastic dialogue for two weeks, on topics we don't usually discuss, built bridges between team members, and gave insight as to why some of the stresses may happen. We called the process our 'JVIS Team Adventure' and approached it with curiosity. At a team meeting we did a de-briefing. I am finding team members are recognizing and accepting differences more than before, and really appreciating those who have a unique contribution in say Practical or Logical..Where a team member was disappointed that they didn't show as strongly as expected in an area, colleagues helped to recognize and appreciate their strong areas."

Julian G., Program Manager
