

Sigma Survey for Security Officers

Report for:

SAM SAMPLE

Name from Answer Form

Answer Form Serial Number: 1

The results reported below are based on the above job candidate's responses to the *Sigma Survey for Security Officers*. These responses were read electronically from the answer form bearing the above serial number. The *Notes* section below indicates how many responses could not be read. Check the *Notes* section before interpreting the candidate's results.

This report is designed to be used in conjunction with other information gathered during the candidate screening process. A final decision on this job candidate should be based on a combination of the results reported below and other sources, such as the job candidate's experience, references, and conduct during a job interview.

The individual sections of the Sigma Survey for Security Officers are scored in terms of *Percentage Correct*. Thus, if a candidate correctly answered 80 percent of the questions on Security Officer Problem Solving his or her score would be 80 on that section. The **Overall Score** is expressed as a *Percentile*. A percentile indicates the percentage of persons in a comparison group who received a lower score than the candidate. Thus, a job candidate whose score places him or her at the 50th percentile means that 50 percent of the persons in the comparison group received a lower score than that obtained by the job candidate.

This report should not be shown to the job candidate.

Notes:

There were no unreadable or duplicate responses.
